

BINZIYA K A

+91-9845879205 | binziyaka.email@example.com

EDUCATION

B.E. – Artificial Intelligence & Data Science

Maharaja Institute of Technology Thandavapura (MITT) · VTU

Expected Graduation: 2027

CGPA: 8.34 / 10.0

TECHNICAL SKILLS

Languages	Python, C, SQL, HTML
ML / AI	Machine Learning, Scikit-learn, Data Visualization
Data Science	Pandas, NumPy, Matplotlib
Tools	VS Code, MySQL, MS Excel, PowerBI, Tableau, Figma
Concepts	DBMS, Data Structures, NLP, Computer Networks

PROJECTS

SSL/TLS Certificate Scanner

- Scanned and analysed SSL/TLS certificates of web servers — detecting expired, self-signed, or misconfigured certificates and flagging security vulnerabilities.

Stack: Python · OpenSSL · Socket Programming · Network Security

AI-Powered Spam Detection

- Developed a spam detection system using NLP techniques and Machine Learning algorithms to classify SMS and email messages as spam or legitimate (ham).
- Implemented TF-IDF vectorization and Multinomial Naive Bayes classification, and deployed the model through a Streamlit-based web application for real-time predictions.

Stack: Python · Scikit-learn · NLP · TF-IDF · Naive Bayes · Streamlit · Pandas · NumPy

CERTIFICATIONS

- Fundamentals of Natural Language Processing | University of Colorado Boulder (Coursera)
- Machine Learning | NPTEL (IIT Madras)

RELEVANT COURSEWORK

Big Data Analytics · Artificial Intelligence · Computer Networks
